

ARYAN PANWAR

Business Analyst | Requirements & Process Analysis | Product & Data-Driven Delivery

+91-7817060230 | aryanpanwar10005@gmail.com | [aryanpanwar.in](https://www.linkedin.com/in/aryan-panwar1) | [linkedin.com/in/aryan-panwar1](https://www.linkedin.com/in/aryan-panwar1) | github.com/Aryanpanwar10005

PROFESSIONAL SUMMARY

Business Analyst with 9 shipped products behind me, most of it real BA work even when the title on the project said something else — writing BRDs and FRDs, mapping processes, running gap analysis, and turning messy stakeholder asks into user stories and acceptance criteria that actually hold up in UAT. Comfortable running competitive and market research and managing multiple stakeholders on Agile boards in Jira. On the tools side: advanced Excel, working SQL, and product analytics through PostHog and GA4. Certified in Enterprise PM (Microsoft), AI Essentials (Google), and Transformer-Based NLP (NVIDIA).

CORE COMPETENCIES

Business Analysis: Requirements Gathering · BRD & FRD · User Stories & Acceptance Criteria · Business Process Mapping · Gap Analysis · UAT Planning & Execution · Root-Cause Analysis · Stakeholder Management

Product & Agile Delivery: Agile/Scrum · Sprint Planning · Backlog Management · Jira · OKRs & KPIs · A/B Testing · Release Management

Analytics & Tools: Advanced Excel (Pivot Tables, Lookups) · SQL · PostHog · GA4 · Funnel Analysis · Figma · Notion

Systems & Technical: Salesforce (Admin) · CRM/ERP Concepts · Python · LLM APIs · FastAPI · Workflow Automation (N8n) · GitHub Actions/CI-CD

WORK EXPERIENCE

Instrumentation Engineering Intern — Indian Potash Limited (Distillery & Co-Gen Unit), Rohana Kalan, Muzaffarnagar, UP

Jun 2025 – Aug 2025

- Documented process and requirement gaps across instrumentation for a molasses-based distillery and co-generation power unit — calibrated sensors across boilers, plant-control systems, and the full production pipeline, applying root-cause analysis to support predictive-maintenance decisions and audit-readiness in a live, regulated operation

PROJECT EXPERIENCE (BUSINESS ANALYSIS FOCUS)

FitWardrobe — Privacy-First AI Stylist App (Sole Founder & Business/Product Analyst) [Live Demo](#) | [GitHub](#)

Jan 2026 – Present | Requirements & PRD Authoring · A/B Testing · Funnel Analysis · UAT

- Authored full PRD, defined OKRs & KPIs, and ran A/B tests on core user flows; tracked acquisition and activation via GA4 and PostHog, driving 20.8K+ impressions and 315 clicks in 6 months with zero paid spend
- Ran root-cause/gap analysis on a Day-1 onboarding drop-off using PostHog funnel data, defined acceptance criteria for a fix, coordinated UAT via beta testing, and shipped the fix in v1.0.1, improving activation rate

SEO & GEO Optimizer — 10-Phase Agentic Workflow Automation Tool [npm](#) | [GitHub](#)

Feb 2026 – Present | Market Research · Competitive Analysis · Requirements Documentation · UAT

- Conducted market research and competitive analysis; authored a 1,400-line requirements specification for a 10-phase workflow automation system with human-in-the-loop validation, sourced from official Google and Bing documentation and verified against 2025 Core Web Vitals
- Validated requirements across 6 AI dev environments (Cursor, Windsurf, GitHub Copilot, Replit, Lovable, Bolt) as part of UAT; published open-source npm package v1.2.0 covering Core Web Vitals, Schema Markup, and AI citation optimisation

Mithivoices — Open-Source AI Voice Platform [GitHub](#)

Dec 2025 – Present | Scope Definition · Acceptance Criteria · Backlog Management · Release Management

- Defined product scope, release milestones, and acceptance criteria for a multi-LLM voice platform, shipping v0.2.0 within 30 days (19 neural voices, 8 languages, sub-450ms latency); managed backlog and sprint execution via Jira, structuring contributor feedback into acceptance-tested release cycles via CI/CD

Credex — AI Tool Spend Audit Platform

2026 – Present | Requirements Definition · Market Need Identification

- Identified a market need — engineering managers lacking visibility into AI tool subscription spend — and defined requirements for a free web app auditing subscriptions and flagging redundant tools, using the Cerebras Cloud SDK for LLM-powered spend analysis and automated reporting

EDUCATION

B.Tech — Electronics & Communication Engineering | MIET, Meerut, UP | Published Researcher — [JETIR](#) (IF 7.95)

Jul 2022 – Jun 2026

CERTIFICATIONS

- Enterprise Product Management Fundamentals — Microsoft / Coursera — Mar 2026
- Google AI Essentials Specialization — Google / Coursera — Feb 2026
- Intro to Transformer-Based NLP — NVIDIA Deep Learning Institute — Feb 2026
